

# INTERNATIONAL CONFERENCE ON CONSTRUCTION, ENGINEERING AND GREEN TECHNOLOGIES

*Call for paper*

**ICCEGT2026:**  
International Conference on  
Construction, Engineering and Green Technologies

**CIDB and  
BEM CPD:  
Applying**

**PROF. DR. ASIFULLAH KHAN**

AI DRIVEN DESIGN AND  
ENGINEERING

**PROF. DR. YUANSHENG QI**

INTELLIGENT MANUFACTURING  
AND AUTOMATION

**IR. PROF. DR. CHAN YEN SAN**

SMART CITIES AND SUSTAINABLE  
SYSTEMS

**PROF. DR. INDRAN  
SUYAMBULINGGAM**

SMART AND SUSTAINABLE  
MATERIALS

**PROF. CHARLES OLUWASEUN ADETUNJI**

SMART AND SUSTAINABLE  
MATERIALS

## Topics

### Track 1: AI Driven Design and Engineering

Topics: Generative designs, energy modelling, smart material selections, life cycle analysis, digital prototypes, predictive modelling, real time monitoring, low carbon building solutions.

### Track 2: Intelligent Manufacturing and Automation

Smart factory system, circular economy, robotics, modular construction, autonomous vehicles, safety AI, resilient and adaptive manufacturing ecosystems, 3D printing strategies.

### Track 3: Smart Cities and Sustainable Systems

Topics: Real time environmental sensing, smart grids, energy optimization, green transportation network, smart land use, logistic optimization, predictive maintenance, sustainable labor practices, workforce monitoring and safety, digital twin applications, digitization construction.

### Track 4: Smart and Sustainable Materials

Advance materials, Ai driven material selections, recycling innovations, machine learning for new composites, bio based materials, material informatics, carbon neutral materials, geopolymers concrete, phase changing materials, seal healing concrete, nanocomposites.

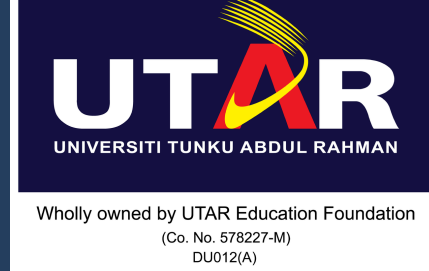

All accepted papers will be published in IOP conference proceeding (Indexed in Scopus)

## Registration Fee

Categories	Local participant (RM)		International participant (USD)	
	Non-Student	Student	Non-Student	Student
Early Bird Registration	1500	1200	480	380
